

MAXIMUS pt

High-performance dry vacuum cleaner with an automated power socket for electric tools.

Suggested Use

The Maximus pt is the ideal companion for any construction craftsmen. With its compact dimensions and low weight, it is perfect for electricians, carpenters or exhibition builders. Wherever a handy, lightweight device is required for fast working. Its enormous suction power guarantees a clean, dust-free workplace on location or in the shop. Any power tool can be plugged into the Maximus pt through the standardized socket & rubber adaptor. The automated socket then activates the vacuum simultaneously with the connected tool. For example when drilling, the vacuum automatically shuts down when the drill is switched off. The included 360 mm floor nozzle ensures performance on a wide range of hard floor and carpeted surfaces. The Maximus pt is universally usable for dry dust and can also be operated without the filter bag.

Features

- Enormous suction power
- Large operating radius with 7.5 m power cord and 2.5 m hose
- Rotary joint on the vacuum hose for hindrance-free maneuvering
- Built-in output regulator automatically adjusts to the type of surface
- Mess-free waste disposal with the sealable fleece filter bag
- Additional fine dust filtration possible with the EPA12 filter cartridge
- Light weight for convenient, single-handed transport
- Accessory storage on the device
- 230 Volt power socket up to 1500 watts with automatic activation
- Large, lockable cable hook

With the multi-tiered power tool adaptor, the vacuum hose can be fitted to any diameter. For example: portable circular saws.

Automated power socket for the use of power tools.

Maximum ergonomics: the vacuum and all its accessories can be transported in one hand.

Large, lockable cable hook, thanks to its swivel joint.

Parking position for accessories on the side of the device.

Four storage slots for accessories on the backside.

SPRINTUS

Professional Cleaning Equipment

Accessory: Combi nozzle
111.307 for textile coverings or carpets.

TECHNICAL DATA

Voltage	230 V / 50 Hz
Max. power	700 W
